IN HONOUR OF

DEPUTY DIRECTOR OF NURSING SERVICES

(DDNS) MRS. REBECCA AGYARE ASANTE

Greater Accra Regional Hospital - Ridge

About five years ago you took up the mantle as the head of nursing of greater Accra ridge regional hospital when the hospital needed a dynamic hard-working and energetic nurse to head Nurses at the facility.

You have been an integral part of my joy and success and will never forget you. My story before, during and after giving birth to my child at your time of leadership would be incomplete without the mention of your name.

A leader and a mother who corrected and disciplined with love. In fact, a big vacuum will be created as you retire from active service and I will always miss you.

You took me as your biological daughter and sister. You encouraged, guided, and counseled me. In fact, I felt at home at the hospital each day, because you readily welcomed me any time I knocked on your door.

Above all, you made a remarkable difference in my life and I can boldly say in the lives of many nurses.

You were a leader and a mother whose door was open to all. You were a leader who exhibited the pledge of the nursing profession no matter one's tribe or language.

I can proudly boast of most of your achievements at the hospital and all nurses can testify.

God bless you and your entire family as you retire from active service.

I have indeed appreciated your remarkable hard work, love, care, consent, and support and I want to say

'THANK YOU', 'AYEKOO'.

I am pleased to present this citation as a token of my deep love and appreciation for your marvelous work and care.

From
(SNO) Linda Osei-Tutu
